LUCIEN POCHON

Entrepreneur & full-stack developer
TypeScript · Next.js · PostgreSQL · Rust

Lausanne, Switzerland · Swiss citizen · lucien.pochon@gmail.com · lucienpochon.ch · github.com/lucienPochon · linkedin.com/in/lucien-pochon

Full-stack developer and certified product owner with a BSc in Media Engineering, a degree that mixes technology, communication, marketing and management. Four years running the web and IT of a Swiss company; now building and operating seven software products alone, from data model to billing.

EXPERIENCE

2025 – now

Entrepreneur & full-stack developer
Independent · Lausanne

- Design, build and run seven software products alone: product, UX, code, database, billing, operations.
- **Garde**, shift planning for Swiss security companies: multi-tenant, 131 row-level security policies, 867 database test assertions, three languages.
- **SwissQRCow**, recurring QR-bill invoicing, live: Stripe billing, bank-file matching, 943 database test assertions.
- **Swiss Private Schools**, directory and admissions platform, live since Sept. 2026: 170 pages, four languages.
- **Regards**, open-source local-first email client: 42,000 lines of Rust, 423 tests.

2021 – 2025

Web & IT Manager, technical lead
Lafamily.ch

- Owned the company's digital strategy and web products, reporting directly to management.
- Ran the whole technical estate: infrastructure, business tools, website, online services, internal IT and security.
- Set the technology choices and built architectures meant to last; automated workflows and secured data.
- Steered external agencies and coordinated web, mobile and design projects.

2016 – 2019

Founder
Black Lime Digital Company

- Media agency: websites, design and communication work for clients.
